PROFILE

Aspiring for challenging level assignments in Software with a growth-oriented organization. Seeking a position to utilize my skills & ability in the IT industry and offices that offers security & Professional growth while being resourceful, innovative & Flexible. Industrious, self-motivated and cooperating, where I can exercise my skill to the best and learn new skills to reinforce my knowledge base to mature as a thoroughbred professional

WORK EXPERIENCE

SENIOR SOFTWARE DEVELOPER

MAR23 - NOW

ROBOSOFT TECHNOLOGIES

Designed and developed user-friendly platforms, including iKroya, a global news delivery system, and the Kingdom OTT Platform, prioritizing user engagement, personalization, and seamless navigation to enhance user satisfaction and retention

SENIOR SOFTWARE DEVELOPER

JAN21 - JUN 22

TATA CONSULTANCY SERVICES

Led the development of a logistics solution for the Pella eCommerce client, emphasizing speed, safety, and reliability for nationwide express delivery. Built an intuitive user interface using React.js and Redux, enhancing user satisfaction by 30%, and developed a custom CMS to simplify content management for non-technical users.

APPLICATION DEVELOPER

OCT 16-JAN 21

ALLSTATE INDIA

Worked on Encompass Insurance, a web-based application designed to streamline policy management and allow policyholders to adjust their policy timelines. Enhanced efficiency by refactoring methods to automate field additions across multiple sets, improving overall development speed. Collaborated with cross-functional teams

SENIOR SOFTWARE DEVELOPER

2023 - 2024

ROBOSOFT TECHNOLOGIES

iKroya - Live Election Analysis: Project is to create an India-first digital-platform for elections, on which the users are seeking data/information/analysis/opinions before and after the elections across the globe. Features include smooth navigation via React Router, code splitting for performance, and responsive design for accessibility across devices.

Tech: ReactJS, Redux, React-Router, Axios.

SENIOR SOFTWARE DEVELOPER

ROBOSOFT TECHNOLOGIES

Capra - Kingdom OTT: The Capra Project is set to revolutionize the streaming industry with the launch of its SVOD OTT platform in 2023, titled "Kingdom OTT." This platform aims to deliver premium content across a wide range of devices, including Connected TVs, mobile devices, and web platforms, ensuring seamless access for users worldwide.

Tech: ReactJS, Redux, React-Router, Axios, LightningJS

SENIOR SOFTWARE DEVELOPER

AUG 22 - JAN 23

Coforge

Worked as a senior software developer at Coforge, where I have taken on leadership roles in project planning and execution, mentored junior developers, and worked on projects for clients in the education and E-commerce industries.

Improved website load times by optimizing front-end code and implementing efficient caching strategies.

SENIOR SOFTWARE DEVELOPER

2021 - 2022

TCS

Pella Logistics Dashboard: Designed and developed an advanced React.js-based dashboard for Pella's e-commerce logistics platform, tailored for customer support teams. The dashboard allowed end-users to track shipments, check delivery statuses, and view detailed information, including product numbers, item counts, and shipment details. Implemented user-based authorization to ensure secure and role-specific access.

Tech: ReactJS, Redux, React-Router, Axios, Firebase

APPLICATION DEVELOPER

2016 - 2021

ALLSTATE

Encompass Insurance: Designed and developed a React.js-based web application to streamline the insurance process, enabling policyholders to efficiently manage their policies. A key feature allows customers to adjust the effective start date of their insurance to an earlier timeline than the original purchase date, ensuring flexibility and compliance with specific coverage requirements. Leveraging React.js for a dynamic user interface and Redux for seamless state management
